

Bois de fil: Dussault

Lines for the Movement

In September,
1974,
Abitibi Pulp and Paper
at Iroquois Falls
hired the first women
in North America
for their mill

a few weeks ago
MacIntyre Mines
hired women, too

a victory in the north
for Women's Lib?

not on your she-man life

they just couldn't get men
for the jobs

Joan Finnigan
